ABSTRACT

The "Test Development Notebook" is a resource designed for the preparation of tests of literal comprehension for students in grades 1 through 12. This volume contains 120 multiple-choice cloze exercises taken from news magazines, and the accompanying answer key. Each exercise carries the code letter of the section to which it belongs. The code letter is followed by the difficulty level of the passage as determined by application of a readability formula. Supplemental, small-print codes on the exercises give additional passage information as explained in SSPED Form 86, the "Handbook." The "Handbook" is the guide to the "Test Development Notebook," and users should review it before starting to work with the multiple-choice cloze exercises in this volume. (Author/BW)

Individuals or institutions wishing to use the Test Development Notebook should contact the Bureau of School and Cultural Research, New York State Education Department, Albany, New York 12234, regarding conditions for use.

ACKNOWLEDGMENTS

The preparation of the Test Development Notebook was initiated in 1974 by Robert P. O'Reilly, then Chief of the Bureau of School and Cultural Research, New York State Education Department. Participants in its development were: Production--Jean Corigliano, Joan Heffler, Shelly Sternbach, and Susan Weiner; Research--Paul D. Hayford, Steven J. Kidder, Ruth Salter, R.T. Schuder, Ronald Streeter, and Gerlach van Gendt.

When first printed in 1976, the Test Development Notebook contained 1,496 Multiple-Choice Cloze Exercises including over 1,000 with passages taken from textbooks for grades 1 through 10. In 1977 a number of the exercises in the Textual Domain were revised, and the domain was expanded with the addition of 229 exercises from texts for grades 11 and 12.

Paul D. Hayford, Assistant in Education Research, and Ruth Salter, Associate in Education Research, in the Bureau of School and Cultural Research, were responsible for the revision of the exercises and, with Linda Rennells, Consultant, for the review and editing of the additions.

The additional exercises were prepared by 15 teachers in the East Syracuse-Minoa, Jamesville-DeWitt, and West Genesee School Districts under a Title IV-C Grant received by East Syracuse-Minoa for a Demonstration Project on Integrating Reading into Content Areas. Starr Canestraro, Instructional Coordinator for the East Syracuse-Minoa Central Schools, arranged the summer workshop where training in the construction of the Multiple-Choice Cloze Exercises was provided by Mr. Hayford. Teacher participants were: Louis DiMento, Peter Fantinato, Gerald Kelly, Irene Marquart, Ida Nesheiwat, Bruno Puetzer, Jr., Patricia Santulli, James Slowik, Lawrence Sollitt--East Syracuse-Minoa; Joseph Culhane, Lloyd Jerauld--Jamesville-DeWitt; Judy Carpenter, David Crawford, Lynn Davis, Patricia Flynn--West Genesee.

Secretarial service for the revision and expansion of the Notebook was provided by Vicki Noble and Nancy Wait.

## USER INFORMATION

This Test Development Notebook is a resource designed for the preparation of tests of literal comprehension for students in grades 1 through 12. It contains 1,725 Multiple-Choice Cloze Exercises with passages taken from four domains or types of material students read--the Textual Domain, the Citizen Domain, the Consumer Domain, and the Reference Domain. The Textual Domain encompasses textbooks in the five major content or subject-matter areas--Reading/Literature, Language Arts, Social Studies, Science, and Mathematics. The Citizen Domain covers Newspapers and News Magazines. The Consumer Domain includes advertisements and packaging, bulletins, consumer magazines, and the like. The Reference Domain takes in test instructions, instructional magazines, encyclopedias, dictionaries, and other reference works.

The Test Development Notebook is divided in nine sections as follows:

| Section | | Code | Exercises |
|---|---|---|---|
| Textual Domain: | Reading/Literature | R | 425 |
| Textual Domain: | Language Arts | LA | 200 |
| Textual Domain: | Social Studies | SS | 200 |
| Textual Domain: | Science | S | 200 |
| Textual Domain: | Mathematics | M | 200 |
| Citizen Domain: | Newspapers | N | 120 |
| Citizen Domain: | News Magazines | NM | 120 |
| Consumer Domain | | C | 100 |
| Reference Domain | | Rf | 100 |

Each section has its own cover page and an index showing the number of exercises by level of difficulty. As the Notebook is unbound, the sections may be readily separated and placed in individual ringbinders or file folders to facilitate test assembly and storage.

Each exercise carries the code letter of the section to which it belongs. The code letter is followed by the difficulty level of the passage as determined by application of a readability formula. Exercises at each difficulty level are numbered sequentially. Thus, R 15-6 in large print in the upper right corner of an exercise indicates that the exercise is from the Reading/Literature section (Textual Domain), that it is at difficulty level 15, and that it is the sixth Reading/Literature passage at that difficulty level.

Supplemental, small-print codes on the exercises give additional passage information as explained in SPPED Form 86, Test Development Notebook, Multiple-Choice Cloze Exercises: Handbook. The Handbook also describes the Multiple-Choice Cloze format, explains the difficulty levels, suggests test designs for various evaluation purposes, discusses scoring, and outlines test assembly procedures.

The Handbook is, in short, the guide to the Test Development Notebook, and users should review it thoroughly before starting to work with the Multiple-Choice Cloze Exercises. Users will also need SPPED Form 85, Test Development Notebook, Answer Key for Multiple-Choice Cloze Exercises. The Answer Key has nine sections, corresponding to the nine sections of the TDN, i.e., Reading/Literature, 85R; Language Arts, 85LA; and so forth.

Test Development Notebook: Multiple-Choice Cloze Exercises

Number of Exercises by Difficulty Level

CITIZEN DOMAIN: News Magazines (NM)

Total Exercises: 120
